Update from the 85th Legislative Session

A wide variety of legislation passed in both the Regular and First Called (Special) Sessions of the 85th Legislature impacting the Medical Board, physician regulation, and the practice of medicine. Key changes are highlighted below.

A detailed listing of priority legislation from both the Regular and First Called Sessions is available in the [Legislative Update](#) published on the TMB website.

Proposed rules to implement legislation are made available for public comment after the Medical Board has approved publication in the Texas Register. [Links to proposed rules](#) are available on the TMB website.

Sunset Review

TMB and its associated boards and statutes were continued until Sept. 1, 2019 with the enactment of [Senate Bill 20](#) in the First Called Session of the 85th Legislature.

In the regular session, the majority of Sunset recommendations related to TMB and its associated boards were ultimately passed in four separate bills due to the failure of House Bill 3040, the original Sunset bill, to pass.

Two of these bills, [Senate Bill 315](#) and [House Bill 2561](#), address a major concern for the Sunset Advisory Commission to combat opioid abuse in Texas. SB 315 addresses nontherapeutic prescribing of opioids by clarifying TMB's authority to investigate and inspect unregistered pain management clinics.

HB 2561 requires boards regulating all types of licensed prescribers to develop guidelines on responsible prescribing of opioids, benzodiazepines, barbituates, and carisoprodol. It also requires periodic monitoring of licensees' prescribing information to identify potentially harmful prescribing practices. Beginning Sept. 1, 2019, all relevant licensees will be required to check patient

history before prescribing or dispensing the four categories of drugs listed above. The bill also provides exceptions for cancer patients and those in hospice care.

Detailed information on TMB's Sunset-related legislation and recommendations is available in the Sunset Advisory Commission's [Staff Report with Final Results](#).

Legislation impacting medical practice

- [Senate Bill 1107](#) provides a new regulatory structure for establishing a valid practitioner-patient relationship via telemedicine. The bill also requires that a health care service provided via telemedicine meet the standard of care that would apply to the provision of the same health care service in an in-person setting.
- [Senate Bill 507](#) provides additional recourse to patients when they receive unexpected medical bills. The legislation expands the balance billing mediation process at the Texas Department of Insurance to include all types of out-of-network providers treating patients at in-network hospitals and other facilities, including freestanding emergency departments. It allows mediation for emergent care balance bills

over \$500 at any healthcare facility, whether in or out of network.

The bill requires health care providers and facilities to include the following statement to patients on eligible balance bills: “You may be able to reduce some of your out-of-pocket costs for an out-of-network medical or health care claim that is eligible for mediation by contacting the Texas Department of Insurance at ...”

- [Senate Bill 11](#) (First Called Session) clarifies requirements for the authorization, execution, and revocation of do not resuscitate (DNR) orders used in a health care facility, including a hospital or an assist-

ed living facility, or in hospice settings. The bill sets requirements for notification of family members or surrogates and sets a penalty (Class A misdemeanor) for health care professionals committing an offense by intentionally concealing, canceling, etc., a DNR order. Specifies that a health care professional and/or facility is subject to disciplinary action by the appropriate regulatory agency for intentionally failing to effectuate a DNR order or issuing a DNR order in violation of the bill’s requirements.

Disciplinary Actions

The following disciplinary actions have been taken since the previous bulletin was issued. To read previous bulletins and news releases, visit: <http://www.tmb.state.tx.us/page/news>

TEMPORARY SUSPENSION/RESTRICTION

Bruschetta, Humberto, M.D., Lic. No. J9634, Kingsville

On May 8, 2017, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Humberto Bruschetta, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on or about May 4, 2017, Dr. Bruschetta, who practices in Kingsville and Mission, was arrested by the Mission Police Department for charges related to allegations of sexual assault and indecent exposure. The crimes are alleged to have occurred in Dr. Bruschetta's medical office during patient visits for treatment of endocrine conditions. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Bruschetta, unless the hearing is specifically waived by Dr. Bruschetta. The temporary suspension remains in place until the Board takes further action.

Craig, Gazelle, D.O., Lic. No. Q2757, Houston

On July 28, 2017, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Gazelle Craig, D.O., after determining her continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on July 6, 2017, Dr. Craig was indicted in the United States District Court Southern District of Texas Houston Division. The indictment alleges that Dr. Craig conspired to unlawfully distribute and dispense controlled substances, and aided and abetted unlawful distributing and dispensing of controlled substances. Dr. Craig signed an Order Setting Conditions of Release on July 10, 2017. The order restricts her from employment in a pain management clinic and from writing prescriptions for certain controlled substances. Dr. Craig's Texas Prescription Monitoring Program Prescriber Activity Report drawn from April 26, 2016 through July 26, 2017 shows that among other controlled substances, she issued over 10,300 prescriptions for Hydrocodone/Acetaminophen 10/325mg and over 10,400 prescriptions for Carisoprodol 350mg. The prescriber report also shows that since Dr. Craig's release on July 10, 2017, four prescriptions for Carisoprodol, four prescriptions for Alprazolam, and 21 prescriptions for Promethazine/Codeine syrup were issued under her DEA number. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Craig, unless the hearing is specifically waived by Dr. Craig. The temporary suspension remains in place until the Board takes further action.

Davis, Randy, D.O., Lic. No. N2053, Arlington

On July 5, 2017, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Randy Davis, D.O., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that Dr. Davis is in violation of his 2014 Order which requires him to abstain from the consumption of alcohol and other prohibited substances. Dr. Davis has tested positive for prohibited substances on multiple occasions and is noncompliant with the order. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Davis, unless the hearing is specifically waived by Dr. Davis. The temporary suspension remains in place until the Board takes further action.

Diamond, Howard Gregg, M.D., Lic. No. H4283, Sherman

On July 20, 2017, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Howard Gregg Diamond, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on July 6, 2017, an indictment was filed against Dr. Diamond in the United States District Court for the Eastern District of Texas, Sherman Division. The indictment indicates an alleged pattern of practice which includes prescribing dangerous controlled substances with a risk of abuse and diversion for no legitimate medical purpose. Dr. Diamond appeared at detention hearings on July 14 and 18, 2017. He has requested release from jail, but as of the drafting of the temporary suspension/restriction application, staff has reason to believe Dr. Diamond remains incarcerated. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Diamond, unless the hearing is specifically waived by Dr. Diamond. The temporary suspension remains in place until the Board takes further action.

Fath, Steven Wade, M.D., Lic. No. K8144, Dallas

A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Fath, unless the hearing is specifically waived by Dr. Fath. The temporary suspension remains in place until the board takes further action.

Gibbons, Gregory Michael, M.D., Lic. No. N3670, The Woodlands

On May 12, 2017, a disciplinary panel of the Texas Medical

Board temporarily suspended, without notice, the Texas medical license of Gregory Michael Gibbons, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on or about April 19, 2017, during a day shift at the CHI Baylor St. Luke's emergency center in Montgomery, TX, Dr. Gibbons was acting strangely in behavior, his treatment of patients, and exhibited clear signs of intoxication. A blood sample came back positive for ethyl alcohol. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Gibbons, unless the hearing is specifically waived by Dr. Gibbons. The temporary suspension remains in place until the Board takes further action.

The suspension was effective immediately. The Board panel found that from approximately February 12, 2009 to April 27, 2017, Dr. Sandoval engaged in a pattern of inappropriate conduct with five female patients in which he violated sexual boundaries through inappropriate touching, actions and comments, which were offensive and of a sexual nature. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Sandoval, unless the hearing is specifically waived by Dr. Sandoval. The Board found Dr. Arauzo failed to meet the standard of care for one patient by prescribing exceedingly high doses of Adderall and Vyvanse.

Atallah, George Michel, D.O., Lic. No. P1162, Houston
On August 25, 2017, the Board and George Michel Atallah, D.O., entered into an Agreed Order requiring him to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year and three attempts pass the Medical Jurisprudence Exam; within one year complete the prescribing course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; within one year complete at least 8 hours of CME in risk management; and within 60 days pay an administrative penalty of \$1,000. The Board found Dr. Atallah failed to meet the standard of care for several patients receiving chronic opioid therapy, failed to adequately document his care and comply with Board rules relating to the treatment of chronic pain, and should have been more diligent in performing adequate physical exams and monitoring.
