Message From the TMB President: Update from the 86th Legislative Session

Zaafran

The 2019 legislative session was a success for the Texas Medical Board (TMB). The staff and Board worked hard to provide the information needed by the Legislature to pass our Sunset bill and adopt the majority of our legislative appropriations requests.

One important benefit to the public from TMB’s Sunset bill is the creation of new, expedited and alternative pathways for physician licensure in Texas. This will greatly help out-of-state physicians and board certified physicians become licensed in our state.

The changes made to Board licensing and enforcement processes, as well as the increased funding, ensure that the Board can continue its mission of public protection with maximum efficiency, effectiveness, and transparency. More information on both the Sunset legislation and the funding is available in the [Joint Statement on Conclusion of 86th Legislature](#).

In addition to the Sunset bill, a wide variety of legislation passed impacting physician regulation and the practice of medicine. A listing of key legislation is available in the [Legislative Update](#) published on the TMB website.

Board staff have been drafting rules related to several bills and anticipate their presentation at the upcoming August and October Medical Board meetings. Proposed rules to implement legislation will be made available for public comment once the Medical Board has approved their publication in the [Texas Register](#) at future Board meetings. Links to [proposed rules](#) are always made

available on the TMB website in addition to their official publication in the Register.

The first group of existing licensees required to undergo fingerprinting will be the **November 2019 Acupuncturist renewals**. Other license types (PAs and SAs) will not begin until early 2020, and all will receive future notice of when they should begin the process.

Please note that **unless you were fingerprinted for your licensure application after 1/15/2018**, the fingerprint background check will be required prior to the completion of your registration. Please also know that criminal history results can take 4-6 weeks for processing.

Reminders of the fingerprint requirement will be included in the renewal notice sent out 90 days prior to your current expiration date, and will also be provided on the license [renewal pages](#) on the TMB website.

JUNE 2019

CHAPTER 172. TEMPORARY AND LIMITED LICENSES

New Subchapter D, Disaster Emergency Rule §172.20 and §172.21.

New Rule §172.20, relating to Physician Practice and Limited License for Disasters and Emergencies, provides two methods for an out of state physician to be approved to practice in the event of a disaster. One method is hospital-to-hospital credentialing, which will not require the physician to apply for and obtain a license. This method will allow qualified out of state physicians to come to Texas and practice medicine at a Texas licensed hospital at the request of that facility. The second method allows a qualified out of state physician to obtain a limited emergency license if the physician has been requested by a Texas sponsoring physician to assist in the disaster or emergency.

New Rule §172.21, relating to Other Health Care Providers Practice and Limited License for Disasters and Emergencies, provides a method for out of state licensees, permit holders, and certificate holders, other than physicians, who practice in healthcare areas subject to regulation by the Board, to obtain authority to practice in Texas during a disaster. These providers must practice under the supervision and delegation of a physician and the supervising physician must be licensed in Texas.

CHAPTER 183. ACUPUNCTURE

The amendments to §183.20, concerning Continuing Acupuncture Education, change CAE requirements so that hours from courses that relate to business practices and office administration will be optional rather than required. Further amendments reduce the number of required core hours in the topics of ethics and safety from four to two.

CHAPTER 185. PHYSICIAN ASSISTANTS

New Rule §185.32, concerning Training and Registration Requirements for Physician Assistants Performing Radiologic Procedures, concerns a physician assistant's performance of medical radiologic technology procedures ordered by a delegating and supervising physician. The rule is based upon Section 601.254 of the Texas Occupations Code, which requires the Physician Assistant Board to set forth rules related to training requirements for physician assistants performing such procedures.

TEMPORARY SUSPENSION/RESTRICTION

Coleman, Paul H., M.D., Lic. No. H5757, Odessa

On July 23, 2019, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Paul H. Coleman, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on or about June 10, 2019, Dr. Coleman was arrested for possession and promotion of lewd visual material depicting children, possession of a controlled substance, and possession of marijuana over four ounces and under five pounds in a drug free zone, all felonies. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Coleman, unless the hearing is specifically waived by Dr. Coleman. The temporary suspension remains in place until the Board takes further action

Dutta, Suresh Venkayya, M.D., Lic. No. L1024, San Antonio

On August 1, 2019, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Suresh Venkayya Dutta, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that Dr. Dutta refused to comply with the terms of his Texas Physician Health Program agreement and failed to sign an interim testing agreement with the Board despite his history of alcohol abuse. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Dutta, unless the hearing is specifically waived by Dr. Dutta. The temporary suspension remains in place until the Board takes further action.

Evans, Kerry Lane, M.D., Lic. No. K5922, Lumberton

On July 24, 2019, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Kerry Lane Evans, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. The suspension was effective immediately. The Board panel found that on or about June 28, 2019, Dr. Evans was indicted and reportedly booked into Tyler County Jail on charges including con-

tinuous sexual abuse of a child. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Evans, unless the hearing is specifically waived by Dr. Evans. The temporary suspension remains in place until the Board takes further action.

The suspension was effective immediately. The Board panel found that Dr. Gibson was emergently referred to the Board after violating his Texas Physician Health Program (TXPHP) agreement, which required that he abstain from controlled substances. Based on the evidence, the panel found Dr. Gibson suffers from a mental or physical condition that impairs his ability to safely practice medicine. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Gibson, unless the hearing is specifically waived by Dr. Gibson. The temporary suspension remains in place until the Board takes further action.

Kruckner, Douglas, M.D., Lic. No. M1189, Stamford

The suspension was effective immediately. The Board panel found, based on the evidence, that Dr. Kruckner has engaged in a long-term sexual relationship with a patient while also prescribing the patient controlled substances, admitted to using methamphetamine and marijuana, and that he was arrested for possessing drug paraphernalia, methamphetamine and marijuana. The temporary suspension remains in place until the Board takes further action.

Mendez, Leovares Antonio, M.D., Lic. No. K9127, Garland

On May 23, 2019, a disciplinary panel of the Texas Medical Board temporarily suspended, without notice, the Texas medical license of Leovares Antonio Mendez, M.D., after determining his continuation in the practice of medicine poses a continuing threat to public welfare. Northern District, Dallas Division, Cause No. 3;19-CV-1055-8. The Court found that Dr. Mendez distributed or dispensed controlled substances by issuing purported prescriptions to law enforcement officers from May 2017, to March 2018; and that from May 2014, through March 2019, Dr. Mendez issued purported prescriptions for a variety of controlled substances in Schedules II, III, IV, and V, all or some portion of which were issued without a legitimate medical purpose and outside the usual course of professional practice. A temporary suspension hearing with notice will be held as soon as practicable with 10 days' notice to Dr. Mendez, unless the hearing is specifically waived by Dr. Mendez. The temporary suspension remains in place until the Board takes further action.

nurse or supervise a surgical assistant. The Board found Dr. Backardjiev violated the standard of care with regard to the care and treatment of six obstetric patients and their newborns, specifically in the use of forceps-assisted delivery. On June 14, 2019, the Board and Tajul I.M. Shams Chowdhury, M.D., entered into an Agreed Order requiring him to within one year complete the medical recordkeeping course offered by the University of California San Diego Physician Assessment and Clinical Education (PACE) program; and within one year complete at least 16 hours of in-person CME, divided as follows: eight hours in drug seeking behavior and eight hours in risk management. The Board found Dr. Deshmukh failed to meet the standard of care by failing to adequately assess a patient's prostate cancer.

Fairweather, Lisa Diane, D.O., Lic. No. L6256, Colleyville

On June 14, 2019, the Board and Lisa Diane Fairweather, D.O., entered into an Agreed Order publicly reprimanding Dr. Fairweather and requiring her to have her practice monitored by another physician for eight consecutive monitoring cycles; and within one year complete at least 14 hours of CME, divided as follows: eight hours in risk management, four hours in drug interactions and two hours in treatment of the impaired patient. The Board found Dr. Fairweather prescribed Lunesta and Ambien to one patient who was noncompliant with alcohol use disorder and prescribed Ritalin and Adderall to another patient who had a high risk for noncompliance and medication misuse that was consuming alcohol. Dr. Fairweather failed to create and maintain adequate and legible medical records.

The Board found Dr. Kidd's medical records do not adequately reflect his prescription rationale, nor do they adequately document the care and treatment provided to the patients and did not keep protocols for his nurse delegates.

Long, John K., M.D., Lic. No. E4487, Houston

On June 14, 2019, the Board and John K. Long, M.D., entered into an Agreed Order requiring him to have his practice monitored by another physician for eight consecutive monitoring cycles; within one year and three attempts pass the Medical Jurisprudence Exam; and within one year complete at least 44 hours of in-person CME, divided as follows: eight hours in medical recordkeeping, eight hours in post-operative surgical care, eight hours in medical ethics, eight hours in risk management and 12 hours in supervision and/or delegation. Other Orders/Actions

Aleman, Ruben, M.D., Lic. No. G3106, McAllen

On June 14, 2019, the Board entered an Order Vacating Final Order, which vacated Ruben Aleman, M.D.'s Final Order entered on June 27, 2014. Both the State District Court and Third Court of Appeals found the Final Order was proper and affirmed the Board's action. Dr. Aleman appealed the lower court decision to the Texas Supreme Court, which issued a decision that upheld the two rulings of the lower courts, but overturned the lower court rulings regarding the State Office of Administrative Hearings (SOAH) Administrative Law Judge's findings of a violation.

Morgan, Courtney, M.D., Lic. No. M8195, Victoria

On June 14, 2019, the Board entered an Order Vacating Final Orders, which vacated Courtney Morgan, M.D.'s Final Orders entered on March 3, 2017 and August 28, 2018. The Board found that there are a number of disputed factual and legal issues present in both appeals and the State District Court's Order. Based on due consideration of cost and expense of continuing litigation, and in light of the State District Court's decision to reverse and remand on some, but not all, findings of the State Office of Administrative Hearings (SOAH) Administrative Law Judge and violations entered by the Board, the Board orders the Final Orders entered against Dr. Morgan vacated.
