Message From the TMB President: Continuing Education Tracker Coming Soon

Zaafran

We are excited to announce that licensees will soon have access to a powerful, new tool to help track their continuing education credits to meet license renewal requirements.

The Texas Medical Board has partnered with [CE Broker](#), an online system to help licensed professionals with keeping track of their earned credit hours and helping streamline any continuing education auditing.

All licensees will eventually be granted access to a free basic account, with a continuing rollout between June 2024 and June 2025 by license type. Licensees will be notified by email when they are able to create an account using their Texas license credentials. Physician licensees will have access to create a CE Broker account in early June.

CE Broker's basic account is free, and premium features are available at a cost. Features in the free, basic account include:

- **Digital Tracking** | Access your complete course history, store your certificates, and check your compliance status any time.
- **Course Search** | Easily find every course needed to successfully complete your license renewal requirements.
- **Easy Reporting** | Most education providers will automatically report course completions to CE Broker for you, but you can also easily self-report any missing credits by uploading your proof of completion.
- **Helpful Support** | CE Broker provides a team of experts trained on the rules and regulations of the

board. Available Mon-Fri from 8am - 8pm ET via live chat, email, and phone.

CE Broker is used by more than 250 licensing and certification boards across the country. The Board is pleased to offer this new opportunity to help all our licensees with staying up-to-date with their continuing education requirements.

Continue visiting the TMB's [website](#) for future CE Broker announcements.
